

Gypsum Load Approval Checklist – Dubai (2025)

Use this checklist before dispatching any gypsum or drywall waste skip in Dubai to avoid WTN rejections, reclassification, and delays under Dubai Municipality's 2025 digital WTN system.

- Skip contains gypsum/drywall ONLY (no concrete, wood, plastic, metal, or packaging).
- Gypsum boards are dry with no moisture, sludge, or water contamination.
- No insulation, adhesives, paint buckets, or aerosol cans present.
- Gypsum waste is not mixed with demolition rubble or general C&D; waste.
- Skip is clearly labeled: "Gypsum Waste Only".
- WTN category selected: Gypsum / Drywall Waste.
- Clear daylight photos taken (top + side view).
- Photos are sharp with no shadows or blur.
- Load visually matches declared WTN category.
- Hauler and disposal facility are DM-approved.
